

BUILD AN ADJECTIVAL PHRASE one modifier at a time.

This strategy will help you get into the habit of ordering your words into an adjectival phrase. Don't worry if you don't always get it right in your writing. The 'Order of Adjective Modifiers' poster will explain each modifier. Remember, the order of adjectives is only a helpful guide. Enjoy selecting words that 'show' your audience what your 'noun' is all about. The order will come with practise.
